

We Work Better, Together

A Guide to Skylands Family Support for New Jersey Service Providers

You're providing services that truly make a difference in the lives of families across New Jersey. A support coordination agency that understands your job can make it easier for you to focus on what really matters – providing support services for the individuals you serve.

What does this look like with Skylands?

Continuous, thorough, respectful communication

Open communication empowers more effective partnerships.

Service providers that work with Skylands can rest assured that:

- All parties maintain consistent communication with one another
- The ISP remains accurate and updated
- Your input and professional opinion are always considered
- The individual is authorized for the proper number of units for services

Self-approving Plans

Skylands is a self-approving support coordination agency, which means we can approve all support plan changes in-house, instantly.

Skip sending support plans to the state of New Jersey. Partnering with Skylands means more streamlined, efficient support coordination, allowing you to focus on your work: providing necessary care to individuals and their families quickly and without delay.

Putting individuals and their families first

We share a common goal and a shared responsibility: improving the lives of individuals with special needs and their families.

That's why at Skylands Family Support, our top priority is customizing support care for individuals and working hand-in-hand with NJ DDD service providers to provide any necessary services and resources.
